

CATÁLOGO WAR SCENIC® SCALE COLOURS

Versão 5.0 Jul/2020

WAR SCENIC® Scale Colours é uma linha artesanal de tintas para plastimodelistas, ferreomodelistas, maquetistas e miniaturistas em geral. É composta à base de resina alquídica e pigmentos puros, com secagem rápida, alto rendimento e vem embalada em frascos com 30ml. Tem baixa toxicidade e é recomendada para quem precisa de um acabamento perfeito. A linha vem sendo desenvolvida desde 2002, através de estudos meticulosos em fontes originais e é avaliada periodicamente para estar sempre na vanguarda das mais recentes pesquisas históricas. Cada cor é representada em sua textura, intensidade, brilho e matiz original, e é formulada para representar corretamente sua característica em escala. Para facilitar a vida dos usuários, foi desenvolvida uma linha de produtos auxiliares, como o Primer Para Poliestireno, os Vernizes Fosco, Acetinado e Brilhante e os Diluentes Para Pintura. À medida em que se fizerem necessárias, novas tonalidades poderão ser incorporadas à nossa linha de cores. Este catálogo foi desenvolvido para representar o espectro de cores o mais fielmente possível, porém devido às limitações gráficas, algumas cores podem apresentar-se diferentes nos monitores ou ao serem impressas. Sempre que necessário, ao fazer uma encomenda, referir-se sempre ao código da tinta.

Para dicas de pintura e informações gerais basta entrar em contato conosco através do telefone (21)2580-5123 de segunda a sexta no horário comercial, nosso WhatsApp 21 96466-1172 ou através do nosso e-mail contato@warscenic.com.br.
